Certificate
NOV 29 2007
of Correction

Sir:

Applicant hereby requests, under 35 USC § 254 and 37 CFR § 1.322, that a Certificate of Correction be issued in this Patent by substituting the formal drawings Figs. 1-7 filed with a Petition under 37 CFR § 1.181 on January 3, 2005, for incorrect drawing Figs. 1-7 from another co-pending Application that were inadvertently published in the printed patent.

NOV 29 2007

BACKGROUND

On September 29, 2003, Applicant filed a complete Application, including three sheets of drawings with Figs. 1-7.

In an Office Action dated November 2, 2004, Applicants drawings were objected to allegedly because the drawings did not correspond to the specification.

On January 3, 2005, Applicant filed a Petition under 37 CFR § 1.181 requesting that the drawings from Application Serial No. 10/671,563 be substituted for the drawings currently associated with this Application, and attached a formal set of those drawings to the Petition.

On February 2, 2005, Applicant filed a Response to an outstanding Office Action and attached a copy of the aforementioned Petition, which had the correct drawings filed therewith.

On November 8, 2005, a decision on Petition was rendered, which granted Applicant's petition. The petition decision stated that (1) this Application will be reprocessed using the copy of the Figures (Figs. 1-7) filed along with the Petition on February 2, 2005; and (2) the Office of Initial Patent Examination (OIPE) would be informed of the decision on petition, and would reprocess the Application with a filing date of September 29, 2003, using the 3 sheets of drawings filed on February 2, 2005.

This Application issued with the incorrect drawings, i.e., with the drawings associated with a related Application, but not with the three sheets of drawings filed in this Application on February 2, 2005.

NOV 29 2007

DISCUSSION

Applicant respectfully submits that the USPTO did not follow the decision on petition and, as a result, this Application issued and was published in the Official Gazette with incorrect drawings.

REQUEST

Applicant respectfully requests that the drawings filed in this Application with the aforementioned Petition under 37 CFR § 1.111, and again on February 2, 2005, be substituted for the drawings incorrectly published in the Official Gazette and incorrectly associated with the issued patent, as a Certificate of Correction. Applicant is enclosing a copy of the correct drawings for this Application, i.e., the drawings filed with the aforementioned Petition and as an attachment to the Response filed on February 5, 2005. Applicant is also enclosing a filled-in Form PTO/SB/44.

If, for any reason, personal communication will expedite prosecution of this application, a representative of OIPE is invited to telephone Robert J. Webster, Registration No. 46,472, at (703) 205-8076, in the Washington, D.C. area.

Prompt and favorable consideration of this Request for a Certificate of Correction is respectfully requested.
